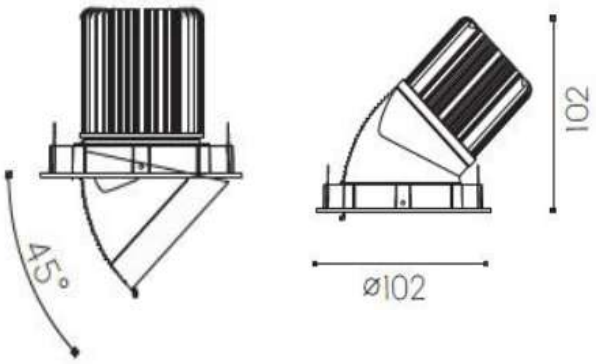
5-year warranty · Made in Europe

Brief Introduction:

Step into the future of precision lighting with the METROLIGHT Recessed Adjustable Spotlight—a cutting-edge innovation redefining modern illumination. Expertly engineered, this versatile fixture delivers exceptional performance and effortlessly adapts to a wide range of lighting needs.
Built with sustainability in mind, the METROLIGHT Spotlight combines energy efficiency with customizable illumination, all while reducing environmental impact. Whether you're accentuating architectural features, elevating retail displays, or crafting dramatic scenes in commercial spaces, this spotlight offers unmatched flexibility and brilliance.
Elevate your lighting design with a solution that balances aesthetic appeal and energy-smart performance

Technical Data:



- Power: 18W-24W-28W-32W-36W-40W
- Material: Aluminum
- Beam Angle: 24°- 36°- 42° - 50°
- Input Voltage: 220-240 V
- CRI: >90
- Frequency: 50 to 60Hz
- Ambient Temperature range: -20 to +40
- Driver: Helvar / Osram / Philips / Tridonic (Dali Optional)
- CCT: 2700K / 3000K / 4000K / 5000K / 6500K / 7500K
- IP Rate: IP20-IP44
- Max. Lumen : 2572lm-4680lm
- Finish: White / Black / Gray
- Led Source: Cree/Osram
- Dimensions: Dia: 102mm, L:102mm

Easy Installation

Turn off the power before starting. Choose a suitable location, mount the spotlight securely, and connect the wires using standard color codes. Restore power, test the light, and adjust the angle as needed. Ensure all connections are secure and clean up the area. Refer to the user guide or consult a professional if needed.

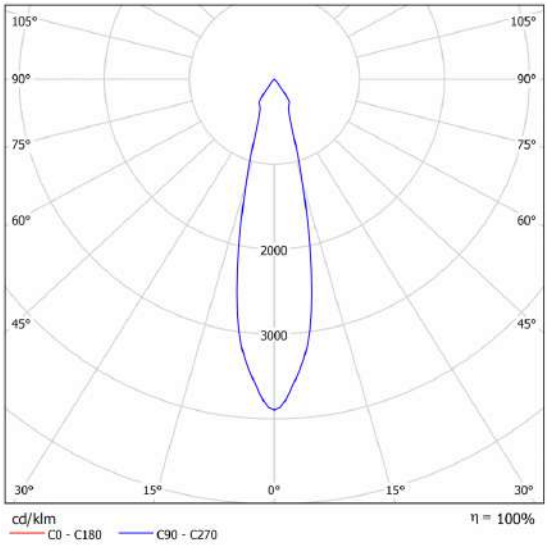
Applications

The METROLIGHT Spotlight Series offers versatile lighting solutions for a wide range of environments. Ideal for accentuating architectural features, sculptures, and landscapes in both residential and commercial spaces, it also enhances product displays in retail settings and creates dynamic ambiance in event or hospitality venues. Whether indoors or outdoors, in galleries, museums, or hotels, METROLIGHT delivers powerful, precision lighting.

In Perspective


Beam angles play a vital role in how METROLIGHT spotlights perform. Narrow beams focus light for dramatic accents, while wider beams cover larger areas for general illumination. Choosing the right beam angle ensures energy efficiency, visual appeal, and optimal performance across architectural, retail, and outdoor applications.
